

# Polycom® VoiceStation™ 100

*Affordable quality sound for smaller rooms or desktops*

## Highlights

**Acoustic Clarity Technology** – Allows simultaneous natural conversation – the industry's best full-duplex

**360-degree room coverage** – Three sensitive microphones enable participants to hear and be heard clearly

**Easy to install/easy to use** – Start conferencing in minutes!

**The Polycom VoiceStation 100 provides a natural hands-free business communication solution.** With Polycom's Acoustic Clarity Technology, the VoiceStation 100 lets you have productive, two-way conversations.

Handset speakerphones are fine for listening to voicemail or conducting short conversations, but they usually don't offer the technology that makes natural two-way communication possible.

Polycom's voice conferencing systems are found in more conference rooms, boardrooms, and other meeting areas than all other types of voice conferencing systems combined. The affordable VoiceStation 100 provides basic conferencing for small rooms and offices.

For business-critical clarity, there's one clear choice: VoiceStation 100.

## The affordable, basic conferencing choice for The Polycom Office™

With integrated video, voice, data, and Web capabilities, The Polycom Office is the only solution that offers you an easy way to connect, conference, and collaborate any way you want. The Polycom Office is our commitment to making distance communications as natural and interactive as being there. Work faster, smarter, and better with the VoiceStation 100 and The Polycom Office.
